

Dear FCC,

Air 1 is a very important radio station to my family. It is the only FM radio station that benefits my family by airing Christian music with family friendly programming. If this radio station were to be displaced, my family would not have a radio station that has had such positive impact on our lives. This also affects the community of Pasadena, Ca because families in this community will not have the option to listen to family friendly music and programming. It would be a huge loss to our community. Please allow Air 1 to remain on FM Radio where our community will be able to tune in to it.

Thank you,

Stewart Brown
